and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

One of the main reasons I went with the TracFone, was the low cost and reliability. Also I only have to buy minutes as I need them, and don't lose minutes I've paid for but didn't have a chance to use. Please reconsider your decision, it will affect many people, and cause a good, decent business to lose customers and look for a cheaper way to use cellular phones.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Shellie Bowlin
